

STICKER DIY INSTRUCTION

This tutorial will show you how to use our stickers to create one-of-a-kind **outfits, facial expressions, and backdrops!**

Coooooooooooooooooool yo!
Let's get started!

Let's Celebrate EVERY Moment!

 www.celebrick.com 

Instruction ♥ Place Order ♥ Customization

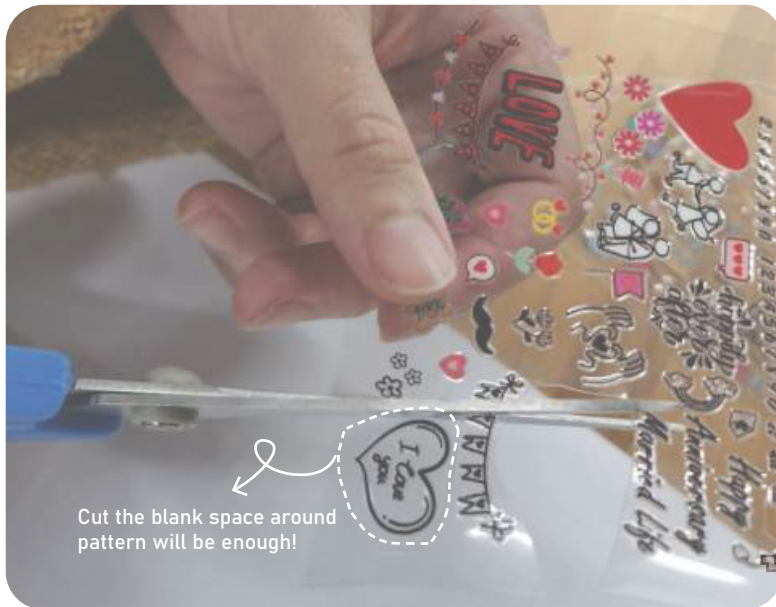

STEP 0

YOU WILL NEED:

STEP 1

Cut the pattern out of the sticker.

STEP 2

Hold the cut-out design and peel off the clear plastic backing.
Be patient~ you can do it!

STEP 3

Paste the pattern / facial expression / clothes on backdrop or minifigure. Adjust position if needed, but carefully!! Gently press the pattern to make it stick on the surface.

STEP 4

Peel off the plastic film from the top of the pattern, leaving only the pattern printed on the piece. If the pattern doesn't fully stick to the piece, repeat this step a few times.

FINISH!!

You made it! The pattern is now on the piece successfully!

WHAT IF...

If the pattern is sticky, you could put the piece in the fridge for 10-20 minutes to cool it down.

If you want to change the pattern / change facial expression or clothes for your minifigure, we recommend use hairdryer or hot water to soften the pattern, then wipe it off carefully.

You will get different stickers for different theme you purchased.
Please contact us if there are any enquiries :)
